Dr. Richard L. Shank, Director  
Ohio Environmental Protection Agency  
P. O. Box 1049  
1800 Watermark Drive  
Columbus, OH 43266-1049

Dear Dr. Shank:

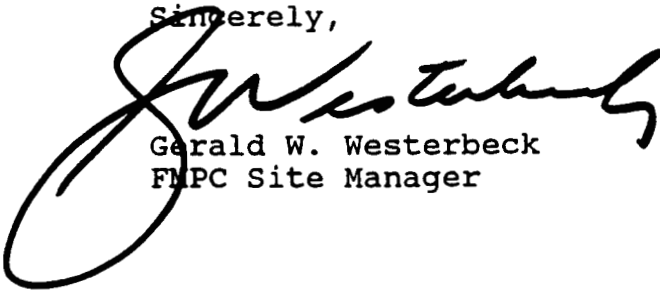

**DISPOSITION OF OFFSITE BORING CUTTINGS**

In accordance with the Consent Decree between Feed Materials Production Center (FMPC) and Ohio Environmental Protection Agency (OEPA), dated December 2, 1988, which requires the State to grant approval prior to any hazardous waste being brought on the facility. FMPC is requesting authorization to bring boring cuttings and developmental water from drilling operations to support the RI/FS onto the facility. This material has the potential to be hazardous waste.

The borings will be brought on site and stored in a 90-day storage area. Requirements of the 90-day storage area [40 CFR 262.34 (a)/OAC 3745-52-43(A)] will be maintained. Upon characterization of this material, proper disposition will be made.

If your staff has any questions, please ask them to contact David Rast, of my staff, at (513) 738-6322.

Sincerely,

  
Gerald W. Westerbeck  
FMPC Site Manager
